

OPEN LIFE SCIENCES

EFFECTIVE AUGUST 2014

ARTICLE PROCESSING CHARGES

In order to sustain the production of our fully-refereed open access journal, each article accepted for publication in Open Life Sciences is subject to an Article Processing Charge of €1500. This fee is used to cover the costs of the peer-review process, professional typesetting and copyediting, as well as online hosting, long-term preservation, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers.

Editors and reviewers are not involved in author payment process and do not discuss charges with authors. The ability to pay does not influence whether or not a manuscript is accepted for publication.

Information regarding payment of these charges will be provided following acceptance for publication. Inquiries concerning Article Processing Charges should be addressed to the Editorial Office.

WAIVER POLICY

If the submitting author is affiliated with an organization which is listed as an [Institutional Member](#), this membership covers the cost of the Article Processing Charge and the author is exempt of any further expenses. Moreover, Article Processing Charges are automatically waived for authors who work for institutions in developing countries (countries classified by the World Bank as [low-income](#) and [lower-middle-income](#) economies). However, other authors who do not fulfill these criteria can also request a waiver or a discount during the submission process.

FUNDING OPPORTUNITIES

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details visit our [website](#).
